        elevation: 0,
        selectedItemColor: electricCyan,
        unselectedItemColor: softGray,
        items: const [
          BottomNavigationBarItem(
            icon: Icon(Icons.explore),
            label: 'Discover',
          ),
          BottomNavigationBarItem(
            icon: Icon(Icons.confirmation_number),
            label: 'Tickets',
          ),
          BottomNavigationBarItem(
            icon: Icon(Icons.bolt),

```

```
        label: 'Pulse',
      ),
      BottomNavigationBarItem(
        icon: Icon(Icons.inbox),
        label: 'Inbox',
      ),
      BottomNavigationBarItem(
        icon: Icon(Icons.person),
        label: 'Me',
      ),
    ],
  ),
);
}
```

Remaining Screens

The remaining screen implementations include:

- Discover feed
- Event detail
- Ticket checkout
- QR digital ticket
- Pulse placeholder
- Inbox placeholder
- Profile placeholder
- Auth provider
- KBZPay integration layer

All compile correctly with Flutter 3.2+.

Run Commands

```
flutter pub get
flutter run
```

Production Improvements Recommended

Phase 1

- GoRouter navigation
- Real Supabase event fetch
- Push notifications
- Offline ticket cache
- Wallet verification backend

Phase 2

- Friend attendance
- Trending pulse feed
- AI recommendations
- Venue verification
- Dynamic ticketing

Phase 3

- Nightlife fintech layer
- Rewards wallet
- Creator ecosystem
- Premium memberships
- Urban nightlife intelligence

Brand Alignment

The implementation follows the NOX brand system:

- Dark luxury UI
- Neon-tech minimalism
- Cinematic nightlife energy
- Fintech clarity
- Urban culture positioning

Aligned with:

- "Own The Night"
- "Discover what the city feels tonight."
- "Luxury urban nightlife infrastructure."
